FAQ: Financial/Scholarships

1. Where do I find information on tuition and fees?
   Information on tuition and fees can be found on the Registrar’s website at http://www.registrarsoffice.ualberta.ca/Costs-Tuition-Fees.aspx. You can also find your Fee Assessment in Bear Tracks online under Financials > Fee Assessment.

2. What scholarships are available?

3. How do I apply for scholarships?
   Students are automatically considered for Faculty-wide academic scholarships, which are based on the student’s GPA at the end of terms 2, 4, 6, and 8. In order to be eligible for these scholarships, the student must have completed at least 35 units of course work in the previous two academic terms.

   Some scholarships are based on superior performance in specific courses. To ensure consideration for these scholarships, students should submit a letter to the department (Undergraduate Program Coordinator or Associate Chair) mentioning the specific scholarship(s) for which they would like to be considered.

   Scholarships involving other criteria such as community service, leadership, extracurricular activities (on and off campus), volunteer work, or athletics, require nomination from the Department. To be considered for one of these scholarships, students should update (and keep current) their student activities on the Faculty of Engineering scholarship database.

4. When will I know if I’m receiving an award?
   Students receiving awards will be notified by Student Financial Support through the Office of the Registrar, usually in August or September. You can also check on Bear Tracks under Undergraduate Awards > My Awards.
